FOR IMMEDIATE RELEASE  
June 25, 2010

## **ACTT, PSR Programs Transferred to Monarch, RHA**

Effective June 24, 2010, Assertive Community Treatment Teams (ACTT) operated by MHA have been transferred to, and will be operated by, Monarch.

Effective June 25, 2010, the Psycho-social Rehabilitation Programs (PSRs) for all five PBH counties will be transferred to, and will be operated by, RHA. Because leases and licenses have not yet been transferred, the PSRs will be closed for a period of time. RHA and PBH are working to ensure that these transfers occur as soon as possible and that the PSRs re-open quickly. Consumers that attend the PSRs are in the process of being notified.

~ MORE ~

Most staff that supported consumers through the ACTT team and the PSR programs will be employed by Monarch and RHA and consumers will receive services and supports from familiar faces. We regret the temporary closure of the PSR programs, but this was unavoidable under the circumstances.
